ON USDT

SMART CHAIN

◀◀◀ Graphtic.io ▶▶▶

What Is Usdt Token?

USDT is a crypto currency with a stable exchange rate equal to usd with the fully audited code and approved by new York state department of financial services, Whether it is for personal use or business purposes, Tether tokens offer many benefits as the most stable, liquid and trusted stablecoin.

What Is Usdt Advantages ?

Fixed value all your results in Graphtic networking are no longer dependent on the price movements and market Correction same crypto opportunities. usdt token can be swapped instantly to any Crypto currency via Dex swaps at almost zero cost.

IMPORTANT!

- **The USDT used in the marketing is a BEP-20 format token on the Binance Smart Chain blockchain.**
- ⚠ **For sending usdt you must pay a certain amount of BNB for the transaction. so it is required to have usdt to participate in the marketing and enough BNB pay the network fees.**

Why Binance Smart Chain?

There are many promising networks, but not all of them are popular enough or well developed. Binance Smart Chain was chosen because of several reasons:

- excellent bandwidth;
- low fees;
- well developed infrastructure;
- growing popularity;
- an impeccable reputation.

What is artificial intelligence?

Artificial intelligence (AI) refers to the simulation of human intelligence in machines that are programmed to think like human mind such as learning and problem solving.

What is Blockchain technology ?

Blockchain technology is an advanced database mechanism that allows transparent information sharing with in a business network. A Blockchain database stores data blocks that are linked together in a chain.

Blockchain ?

**A Digital database or ledger that is distributed
among the nodes of a peer- to - peer network.**

Decentralization ?

**NO one not even the creators of the code
can make changes to the work of Graphitic
smart contract.**

TRANSPARENCY ?

The smart contract code is stored in the public

domain and any one can view the entire transaction

history at any time. this ensures fair conditions and

reliable statistics that you can rely on

Unchanging Conditions ?

The algorithm is stored on the blockchain, so no one even the authors of the idea can interfere, cancel or change your transaction.

Autonomy ?

The graphtic ecosystem is built around the technology of smart contracts which are completely autonomous and exclude the influence of the human factor.

The background is a dark charcoal grey. It features several faint, semi-transparent geometric and network-like patterns. On the left and right sides, there are network diagrams consisting of interconnected nodes and lines. In the center, there are large, stylized, overlapping shapes that resemble the letters 'G' and 'M' in a bold, sans-serif font. The text 'Graphic Marketing' is centered horizontally and vertically, with 'Graphic' in white and 'Marketing' in a bright yellow color.
